

AIT Worldwide Logistics

Company Profile

AIT Worldwide Logistics is a global freight forwarder with more than four decades of experience. Our asset-light business model delivers speed and affordability, and our scalable, flexible, and customizable solutions serve all major lanes, modes and industries.

AIT's global capacity procurement power and regional market expertise will help your business grow its domain—and bottom line—while reducing supply chain complexity.

Background

US\$1.856 billion 2023 gross revenue
Founded in 1979

Global Network

Headquarters in Asia, Europe, Middle East
and North America

High-Performance Culture

Beyond profitability or revenue targets, AIT teammates strive to grow and improve across our core values, serving our customers, each other and the communities where we live and work.

Quality Commitment

We globally monitor more than 30 key performance indicators crucial to meeting customer requirements. The 18 most critical metrics make up our Quality Management Index score.

Logistics Technology Platform

We designed our platform to remove complexity from your supply chain. On day one, we'll engage with your teams and streamline onboarding—so you can get shipping right away.
